

Nu Html Checker

This tool is an ongoing experiment in better HTML checking, and its behavior remains subject to change

Showing results for contents of text-input area

Checker Input

Show ☒ source ☐ outline ☐ image report

Options...

Check by text input ☐ css

```
        </div>
        <div id="score-container">
          <div id="score"></div>
          Correct
        </div>
      </div>
    </div>
    <div id="final-page">
      <p id="result">Result</p>
      <p id="response">Response</p>
      <button id="restart">Try Again</button>
    </div>
  </div>

  <script src="assets/js/script.js" defer></script>
```

Check

Use the Message Filtering button below to hide/show particular messages, and to see total counts of errors and warnings.
